Chairwoman Hoch called for proponents and opponents. Seeing no further public input, Chairwoman Hoch closed the public hearing and called for Commission Discussion.

Mr. Robinson III noted that he was a former coworker of the applicant, and confirmed that he will not have any personal financial gain from the approval of the Special Use Permit.

Mr. Masters asked the applicant whether she had been in contact with the surrounding businesses regarding her proposals. He also asked how many cars she intends to keep on site. Ms. Maben Diril explained that there would be a maximum of twenty (20) cars on site. She suggested that she had discussed the proposal with the neighbors on the north and south of the lot, but not with other neighbors. Ms. Maben-Diril added that she was not aware of any issues with the neighbors.

With no further discussion, **Motion** was made by Mr. Carson, seconded by Mr. Barker, to recommend approval of the Karen's Fireside and JT Motor Sales Special Use Permit (SUP-18-0003) because the proposed land use is consistent with the zoning and surrounding uses, contingent upon the resolution of staff comments. The applicant is Prairie Queen, LLC. (First Amendment to Prairie Queen Mixed Use Development Agreement) **MISC-18-0006**

Chairwoman Hoch opened the public hearing.

Laura Brink, 4880 S 131st Street, Suite 3 (Omaha), stepped forward to represent the applicant. She explained that the requested amendments will ensure that the Development Standards Table and corresponding Zoning Exhibit match the original intent and overall programming of the project. She added that the plan for the project will remain the same.

Chairwoman Hoch offered her support of the project, and commended the developer for the detail provided in the Mixed Use Development Agreement.

Chairwoman Hoch called for proponents and opponents. Seeing no further public input, Chairwoman Hoch closed the public hearing and called for Commission Discussion.

With no further discussion, **Motion** was made by Mr. Keller, seconded by Mr. Masters, to recommend approval of the Prairie Queen Mixed Use Development Agreement Amendment (MISC-18-0006) because it is compatible with the Future Land Use designation and the originally approved Illustrative Master Plan, contingent upon the resolution of staff comments. Roll Call: Seven yeas, no nays. Motion carried.

Revised Preliminary Plat – A revised Preliminary Plat for the property legally described as Tax Lot 7A of Section 28, T14N, R12E together with Tax Lot 9A of Section 21, T14 N, R12E of the 6th P.M., Sarpy County, NE, generally located on the NW corner of 96th St and Lincoln Road. The applicant is Jeff Elliott. (Lincoln Way) **PP-17-0013R**

Larry Jobeun, 11440 W Center Road #C (Omaha), stepped forward to represent the applicant. He noted that the applicant, Jeff Elliott was also present. Mr. Jobeun explained that the Revised Preliminary Plat was changed to address the concerns of City Council. He noted with the revisions, S 97th Street now connects to Cornhusker Road and Osprey Lane allowing for eighteen (18) additional lots along S 97th Street, thus increasing the projects valuation. He added that Osprey Lane was revised to be a full movement intersection to allow for future connections to the east via Osprey Land and Cornhusker Road.

Chairwoman Hoch called for proponents and opponents.

Ken Iverson, 300 S Polk Street, stepped forward to express concerns regarding the lack of commercial uses at the site. He suggested that the lack of commercial uses is inconsistent with both the Sarpy County Comprehensive Plan and existing development along the S 96th Street corridor. He indicated that the lack of commercial uses along the 96th Street corridor could have negative effects on local property taxes. He also expressed frustration with the requirement to build trails without businesses along said trails to access.

Mr. Masters asked Mr. Iverson whether he was for or against the project. Mr. Iverson indicated that would prefer that the project include a commercial component.

Mr. Jobeun confirmed that the Comprehensive Plan for the City of Papillion identifies this site as low and medium density residential; therefore, the proposal is consistent with the Comprehensive Plan.

Seeing no further public input, Chairwoman Hoch closed the public hearing and called for Commission Discussion.

Mr. Keller noted that the Commission and staff might only deliberate on what is presented to them. He added that there are commercial uses both existing and proposed nearby.

Mr. Carson explained that commercial uses tend to follow after residential development is built to support said business. Mr. Stursma concurred. He added that most commercial uses that consider development within Papillion's jurisdiction request "rooftop" data to ensure that they can expect enough customers to support his or her business. Mr. Stursma confirmed that the Papillion Comprehensive Plan only identifies residential uses at this site. He explained that there are other commercial uses, proposed and existing, nearby.

Chairwoman Hoch explained to the Commission that any motion on this agenda item should note that the Revised Preliminary Plat supersedes the previous Lincoln Way Preliminary Plat as approved by City Council on March 20, 2018 by Resolution No. R18-0042.

Mr. Wilson asked whether there is a concern about the water as suggested in Section IV under contingency number five of the Planning Commission Staff Report. Jeff Elliott, 17007 Marcy Street (Omaha), stepped forward to explain that the Water Exhibit was inconsistent with the TD2 water modeling for the area because it included a water main with the incorrect sizing. He noted that the exhibit has since been corrected.

With no further discussion, **Motion** was made by Mr. Carson, seconded by Mr. Keller, to recommend approval of the Lincoln Way Revised Preliminary Plat (PP-17-0013R) because it is generally consistent with the originally approved Preliminary Plat and shall supersede the original Preliminary Plat approved by City Council on March 20, 2018 by Resolution No. R18-0042, also because it is generally consistent with the Comprehensive Plan, compatible with adjacent uses, and compliant with Zoning and Subdivision Regulations, contingent upon the resolution of staff comments. Roll call: Seven yeas, no nays. Motion carried.
