NEWS RELEASE

Residents Invited to Comprehensive Plan Design Workshops At the Papillion Landing Field House

PAPILLION, Nebraska, November 9, 2018 – As part of the process to update its Comprehensive Plan, the City of Papillion invites the public to attend its upcoming Design Workshops.

The City’s Comprehensive Plan is its blueprint for growth into the next 20 years. With the help of JEO Consulting, several focus groups and an open house event, the Papillion Planning Department has developed several alternative concepts regarding its Comprehensive Plan. Now, the department is looking to local residents for more feedback.

The public is invited to attend Design Workshops on December 3, 4, and 5, from 5:30 p.m. to 7:30 p.m. each evening. The workshops will be held on the 2nd floor of the new Papillion Landing Field House, 1022 West Lincoln Street in Papillion. On Monday, Dec. 3, attendees will be able to provide feedback on several alternative concepts. On Tuesday, Dec. 4, attendees will view refined concepts and will provide input for the final meeting on Wednesday, Dec. 5, where attendees will review and provide feedback on the preferred concepts. Brief presentations will begin each evening at 5:30 p.m., followed by an open house where attendees will be able to view exhibits, ask questions of the project team, and provide feedback.

The Design Workshops will focus on conceptual future land uses and street networks within Papillion’s extraterritorial jurisdiction, and will focus on land use patterns and residential densities in the existing built environment. The public will have the opportunity to provide input on specific areas and issues in the study area. Refined concepts will ultimately be incorporated into the Papillion Comprehensive Plan Update.

For those who are unable to attend the Design Workshops, please contact the Papillion Planning Department at 402-829-1182 to learn more or to submit ideas.
